## Publishing model choice

If an author does not have an agreement available to cover the costs of publication, they will be given the option to either publish subscription or pay for open access using other funds.

If they select open access, they will have the opportunity to provide billing details.

non-OA로 출판하거나 저자가 직접 APC를 지불하는 옵션이 제공됩니다.

오픈 액세스를 선택하는 경우 청구 세부 정보가 제공됩니다.

### Publishing agreement

#### Choose how to publish

 **We encourage you to publish open access if you can** — it makes your research more widely available. However, you will need to have the funds to pay the article processing charge (APC).

 **We suggest that you explore your funding options** — it makes your decision easier. How to get information:

- Check our [list of funders](#) first, as your APC funding may be covered
- Consult our [funding support service](#)
- Contact the librarian at your institution

 **We know that this is not a quick decision** — if you want to look for help to pay this before making a choice, you can return to this page when you're ready.

Please select your publication model:

☐ **Publish open access - everyone can read your article for free online**  
The APC for this article is £3780.09 / \$4080.50 / €4120.89. The final amount will depend on any local taxes or admin fees.

☐ **Publish subscription - readers will need a subscription to access your article**  
Check the conditions of your funding before choosing subscription. Some funders require immediate open access (read about [open access policy requirements](#)).

If you select the subscription publishing route, you accept the journal's standard licensing terms - including embargo and [self-archiving policies](#). These terms replace any others that anyone may declare to apply to any version of the manuscript.
